O Create IBM DB2 and connect with Node.js

The screenshot shows the IBM Cloud Object Storage console. The left sidebar lists navigation options: Cloud Object Storage, Storage instances, Cloud Object Storage-la, Buckets, Integrations, Endpoints, Usage details, Service credentials, Connections, and Plan. The main content area is titled 'nodejs' and has tabs for Objects, Configuration, and Permissions. A yellow warning box states: 'Warning: All objects in this bucket have public view access.' Below this, a message says: 'If you're seeing more usage than expected, versions count towards your usage or you may have incomplete uploads [Learn more](#)'. A table lists objects in the bucket:

Object name	Archived	Size	Last modified
.gitignore		30 bytes	2022-11-11 11:29 AM
REA...md		2.2 KB	2022-11-11 11:29 AM
package-lock.json		181.8 KB	2022-11-11 11:29 AM
package.json		712 bytes	2022-11-11 11:29 AM

The bottom of the screen shows a Windows taskbar with the time 2:16 PM on 11-11-2022.

The screenshot shows the IBM Cloud Object Storage console with the 'nodejs' bucket configuration page. The left sidebar is the same as the previous screenshot. The main content area has tabs for Objects, Configuration, and Permissions. The 'Configuration' tab is active, showing 'Bucket configuration >'. There are sections for 'Jump to' (Bucket details, Endpoints, Versioning, Key management, Activity Tracker, Monitoring) and 'Bucket details'. The 'Bucket details' section shows the following information:

Bucket details		Show less	
Bucket name	nodejs	Total bytes	186.8 KB
Service instance	cloud-object-storage	Resiliency	Regional
Total objects	5	Location	jp-tok
Storage class	Smart Tier	Date created	2022-11-11 11:28 AM
Cloud Functions trigger	Disabled		

The bottom of the screen shows a Windows taskbar with the time 2:16 PM on 11-11-2022.
